# Interior Design Illustrated

## 4th Edition

Francis D.K. Ching & Corky Binggeli

**The bestselling guide to interior design, updated with new code and technology**

*Interior Design Illustrated* is the definitive guide to design for interior spaces. Richly illustrated in author Francis Ching's signature style, this book introduces complex design concepts in a visually stunning format; from defining the space and using the elements of design, to planning building systems and incorporating sustainable materials, this volume embodies the idea that beauty and function are not separate entities, but two parts of a whole. This new fourth edition has been updated to reflect the latest building codes and design practices, with discussion of new materials related to acoustics, lighting, and sustainable furnishings. Renewed attention to sustainability includes new information on energy conservation, design for longevity and adaptive reuse of existing buildings, as well as an updated discussion on LED lighting, workplace design, use of color, and computer modeling software to provide a well-rounded view of how interior design firms are working today.

This classic text brings the elements and principles of design to life, giving students the practical skills they need to transition from idea to concept.

- Understand the latest building codes and how to integrate them into your design
- Explore new advances in materials, lighting, and wireless technology
- Design from a perspective of sustainability, longevity, and energy efficiency
- Delve into BIM, including software for modeling lighting, acoustics, and more

Interior designers work at the intersection of aesthetics, functionality, regulations, accessibility, sustainability, and technology. There's no one formula for getting it right, only an eye trained by experience, based on a mastery of design fundamentals. *Interior Design Illustrated* begins laying that foundation, guided by a leading global authority in the field.

### About the Authors

**Francis D.K. Ching** (Seattle, USA) is a leading global authority on architectural drawings and is Professor Emeritus of Architecture at the University of Washington. He is the author or coauthor of numerous architecture and design books, including *Design Drawing*, *Architectural Graphics*, *Architecture: Form, Space, and Order*, *A Global History of Architecture*, *Building Construction Illustrated*, and *Building Codes Illustrated*, all from Wiley.

**Corky Binggeli** (Arlington, USA), ASID, NCIDQ, is a principal at Corky Binggeli Interior Design and has taught at Wentworth Institute of Technology in Boston and Boston Architectural College. A professional member of ASID and past President of ASID New England, she is the author of *Graphic Standards Field Guide to Commercial Interiors*, *Materials for Interior Environments*, *Building Systems for Interior Designers*, and editor of *Interior Graphic Standards*, Second Edition, all from Wiley.
